---

**WARNING**  
**CAPACITORS CAN BE A**  
**HAZARD WHEN NOT USED PROPERLY**

---

Capacitor Industries will not indemnify or be responsible for any type of damages to persons or property due to the improper application of any capacitors purchased from or donated by Motor Capacitors, Inc., Chicago Condenser Corp., SEI Capacitors, Inc.

When dealing with capacitors, electrical or mechanical misapplication can become hazardous. Misapplied capacitors can explode and cause bodily injury or property damage due the expulsion of molten material or metal fragments. Proper handling procedures must be followed. If there is any question about how to connect or discharge a capacitor, Capacitor Industries engineering should be consulted.

All capacitor designs are not interchangeable with other capacitor designs even though they may have similar ratings. Motor Capacitors, Inc., Chicago Condenser Corp., SEI Capacitors, Inc. capacitors should be used only for the intended application.

Be safe not sorry. If you have any questions, contact Capacitor Industries.
